We've tried to make this newsletter as easy to read as possible. If you see a word in blue and underlined this is called a 'hyperlink'. Simply click/tap the hyperlink, which will take you to a website without needing to type anything in.

We're proud to be holding a Community Health and Wellbeing event at [Studley Village hall](#) on the 30th of September 2022. We'll have [ARRS](#) staff from the PCN to talk about the services they run, Sarah from [Stratford Time Bank](#), and Alyvonne from [Act on Energy](#).

We have various roles in practice with some you will be familiar with and some that you may not be. Care coordinators, Social Prescribers, and Health and well-being coaches to name a few.

Social prescribers – Involved with helping patients to improve their health, well-being, and social welfare by connecting them to community services that might be run by the council or a local charity.

Care Coordinator - provide extra time, capacity, and expertise to support patients and focus on the delivery of personalized care. They work across several fields, and in some cases may focus on a specific group of patients

Health and Wellbeing Coach - takes a holistic approach; to support, educate and motivate patients to take a more active role in their own health and physical wellbeing, and make positive and confident behavioural changes.

You don't need a smartphone to access the **NHS App**.

Order repeat prescriptions, view your GP health record, and more.
